

RAKE IN THE POINTS The more you spend, the more you earn!

Mirror, mirror, on the wall, who's the fairest of them all? Well you are of course. And we want to reward you for buying all the things you would normally buy to make yourself pretty.

Which is why we're created our Collective Wellbeing rewards program. It allows you to earn points that you can redeem for products.

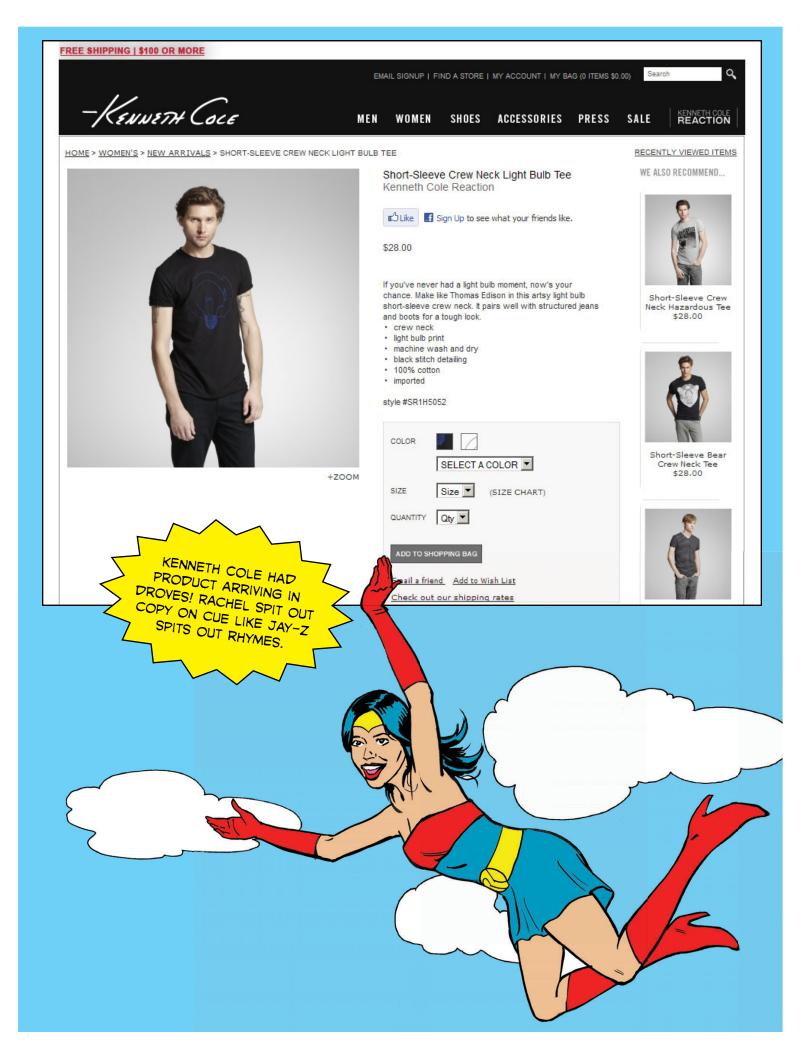

So now you may be thinking "I want points! Tell me how it works!"

Well pretty lady, there are lots and lots of ways to earn points. We have more choices than a bowlful of sprinkles.

- For every \$7 you spend beautifying yourself, you earn one point.
- We want to reward you for going all out. If you're having a good day and go over \$75, you'll earn an additional 5 points for every \$75.
- Love a product like bees love honey? Write a review and earn one point towards your bank.
- Sign up for our newsletter and earn a point.
- It's your birthday, get busy! We're going to give you 5 points just to celebrate your big day. Go crazy.
- Get a friend to sign up and nab one points.
- If you're friend places an order, score ten points for the first one and five for every order thereafter.

The best part? Each point is worth a dollar. So unlike a frequent flier account, you won't need 25 billion miles to redeem it for something. Got 50 points? You've got \$50 to spend.

So what are you waiting for? Your points are here and ready.

About Us

Co-founders Meera Patel, Amy Heller, and Sheena Patel all met as roommates living in New York City, when they bonded over their love for clothes and cosmos. However, as much as their closets grew, finding the perfect Indian outfit for every occasion was proving to be a struggle. Between weddings, diwalis, and navratris, their social calendars were filling up faster than they could find stylish, yet

They looked at each other with worry. Each wedding required a minimum of two to four outfits. With no trips to India on the horizon, things were beginning to look dicey. Could they repeat outfits? What if someone noticed? Or worse yet, what if someone saw their same outfit posted on Facebook? Shudder! They would never live it down.

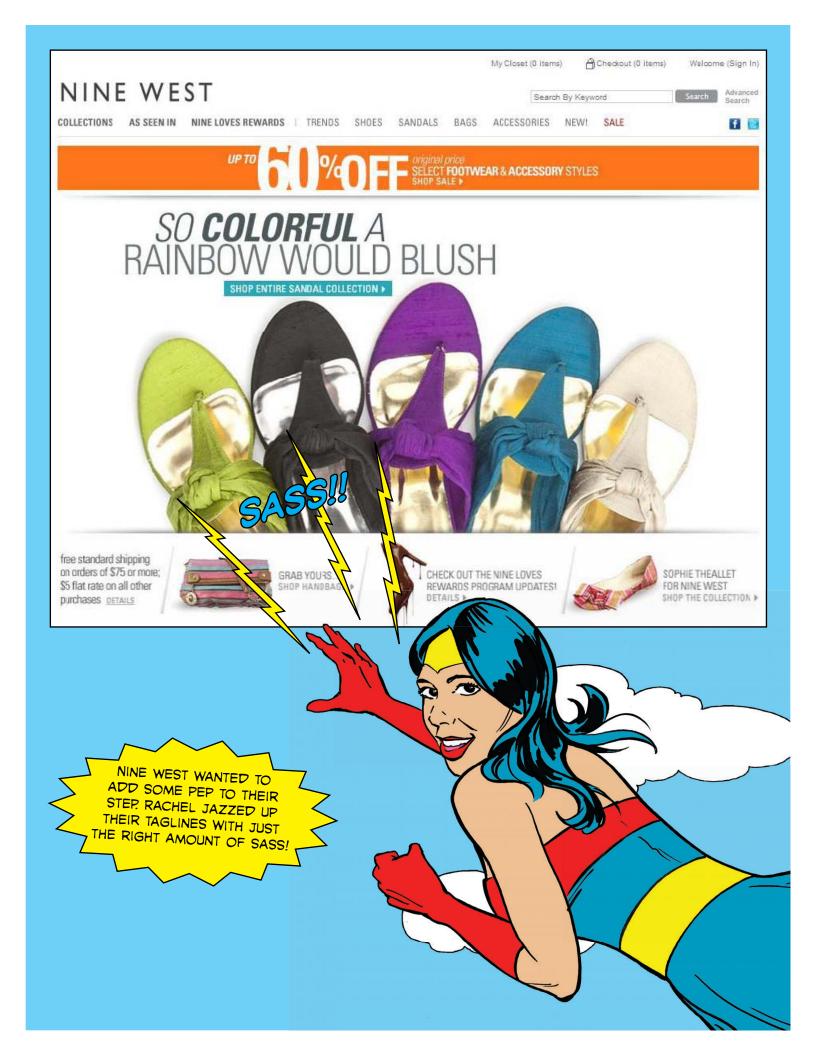

The girls wanted to splurge on designer creations, but with so many events, their bank accounts told them that was a no-no. Indians don't do vintage, so thrift stores were out, and eBay proved fruitless as well. So what's a fashionista on a budget supposed to do?

That's when these New Yorkers thought "what if we could rent outfits like we rent cars?" What if designers could lend out their pieces at a lower cost to style-conscious women with a passion for fashion but limited funds?

Next thing you know, Meera, Amy, and Sheena were busy drawing up plans for their brainchild, a fashion portal where women (AND MEN) could RENT trendy South Asian outlits for their next big fat Indian wedding (garba, mela, navratri, diwali, puja, party, baby-naming ceremony, etc.) They started meeting designers, putting their web site together, and presto... Devi's Closet was born in Fall 2011.

Based in one of the fashion capitals of the world, New York City, Devi's Closet seeks to meet the needs of glamorous desi and desi-loving fashionistas who want to look gorgeous when they hit the town, without worrying about shelling out tons of cash for each ensemble. The best part is Devi's Closet keeps a constantly rotating stock of clothes, so you never have to worry about wearing last season's items. Now you'll always look like a million bucks. You just don't have to spend it.

Cents & Sensibility: The Real Cost Of Paying Bills Late

You might think leaving your bills for later is an easy way to avoid pain and suffering, but you're going to end up hurting even more when you realize how much damage you're really doing to your wallet and your credit.

For example, did you know late fees are often more than what you pay in interest? That is already way too much. Before you know it, you'll be sliding down the slippery slope of late payments and bad credit.

In short, you need to pay your bills on time in order to: Avoid late fees. Duh, \$30 a pop can really add up. Even if you only pay late only four times a year, that's already \$120! Do it every month and you're looking at \$360 a year. That's enough to buy a plane ticket.

Avoid having your service turned off. The cable and utility companies will hunt you down and shut off all your services. The worst part is they almost always charge you extra to turn it back on. Imagine if you were having a Super Bowl party and all of a sudden your cable went kaput. Talk about embarrassing! Not to mention expensive.
